

A couple of „Wenigsteiner” to enjoy for beginners and masters

Dedicated to Julia

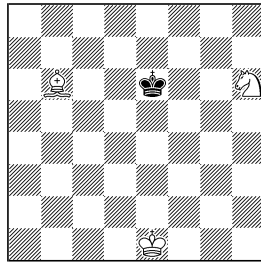

I want to thank Julia for the friendly way, she handles all the problems, we bother her with. Though I do not know whether she is a „proca-fan”, I hope she likes one or the other.

Hints

1. Too easy, no hint.
2. The knight does not, but the rook moves.
3. Activate the bishop.
4. The rook mates.
5. Black takes a white rook.
6. Get the queen to h8.
7. Two steps up for the rook.
8. Where does the pawn comes from?
9. Whats wrong with $1.K \times Pe6 \rightarrow e1$?
10. A black queen does not do the job.
11. Do you really need a hint for a onemover?
12. Three rooks?
13. In a) a knight, in b) a bishop.
14. How the hell does the bishop mate?
15. The bK should not escape!
